REMARKS

Applicant appreciates the allowance of Claims 1-10 and 12 and the indication of allowable subject matter in Claims 14-20.

In the Response, rejected Claim 13 has been amended to include the features of cancelled allowed Claim 14. For example, the media reservoir sections passing into one another in their interior through a step shoulder as recited in lines 1-4 of Claim 14 is now present in amended lines 4-6 of Claim 13. Further, the sealing elements separating the "mediums" in the reservoir section recited in Claim 14, lines 5-6 is now present in Claim 13 lines 6-7. Finally, the language set forth in Claim 14, lines 6-11 directed to the single stroke of the pump device has been added verbatim at the end of Claim 13.

Claim 13 has been amended to address the objections set forth in paragraph 1. of the Office Action. Amended Claim 13 now has proper antecedent basis for the mediums recited in line 7. The mixed media recited in line 17 has been deleted. Therefore, withdrawal of the objections is respectfully requested.

Since independent Claim 13 now includes all of the features of allowed dependent Claim 14, allowance of Claim 13, and Claims 15-20 dependent therefrom, is respectfully requested.

Claim 13 includes the features of cancelled Claim 14. Claim 15 has been amended to delete the hollow bodies passing into one another in their interior and to delete the step shoulder, as these features are now present in amended parent Claim 13. Claim 18 has been amended to address an informality therein. Thus, the amended claims present no new issues requiring further consideration or search. Therefore entry of the amendment after final rejection is respectfully requested.

For the above reasons, reconsideration and allowance of Claims 1-10, 12, 13 and 15-20 is respectfully requested.
